How it works

1. **Fill out the enquiry form**

   After receiving your answer, our admin team will reach out to chat about your goals, caseload and most suitable mentor.

2. **Sign the mentoring agreement**

   This covers fees, session length, cancellations and de-identification of client information.

3. **Book your sessions**

   Choose the option that suits you. You can self-fund, or we can invoice your employer.

All case discussions are de-identified to protect client privacy.
